Curriculum Vitae, October 2021

Research Vision

Computation is empowering, and programming languages are how we harness it. To that end, I am interested in studying the human aspect of programming to design programming languages, environments, and tools that are more accessible, intuitive, and powerful.

Primary research areas: programming languages, human-computer interaction

Education

University of California, Berkeley	2020–

PhD in Computer Science
Advisor: Sarah E. Chasins

University of Chicago	2016–2020

BS in Computer Science (Honors), BS in Mathematics, Minor in Music
GPA: 3.97/4.00 (*summa cum laude*)
Advisor: Ravi Chugh
Honors Thesis: **Forging Smyth: The Impl. of Program Sketching with Live Bidirectional Evaluation**

Research Internships

Carnegie Mellon University	2018

Advisors: Jonathan Aldrich (CMU), Alex Potanin (Victoria University of Wellington)
Project: **Approximating Polymorphic Effects with Capabilities**

Peer-Reviewed Full Publications

How Statically-Typed Functional Programmers Write Code	OOPSLA 2021

Justin Lubin and Sarah E. Chasins
In *Proceedings of the ACM on Programming Languages (PACMPL), Issue OOPSLA.*

Program Sketching with Live Bidirectional Evaluation	ICFP 2020

Justin Lubin, Nick Collins, Cyrus Omar, and Ravi Chugh
In *Proceedings of the ACM on Programming Languages (PACMPL), Issue ICFP.*

Sketch-n-Sketch: Output-Directed Programming for SVG	UIST 2019

Brian Hempel, Justin Lubin, and Ravi Chugh
In *Proceedings of the ACM Symposium on User Interface Software and Technology.*

Deuce: A Lightweight User Interface for Structured Editing	ICSE 2018

Brian Hempel, Justin Lubin, Grace Lu, and Ravi Chugh
In *Proceedings of the International Conference on Software Engineering.*

Peer-Reviewed Workshop Publications

Type-Directed Program Transformations for the Working Functional Programmer   PLATEAU 2019
Justin Lubin and Ravi Chugh
In *Proceedings of the Workshop on Evaluation and Usability of Programming Languages and Tools.*

Honors

Fellowships

NSF Graduate Research Fellowship (GRFP)	2020

Student Research Competitions

3rd Place Graduate at CHI, *How Statically-Typed Functional Programmers Author Code*	2021
1st Place Undergraduate at SPLASH, *Approximating Polymorphic Effects with Capabilities*	2018

Honor Societies

Sigma Xi	2020–
Phi Beta Kappa Honor Society	2019–

Academic Honors

Enrico Fermi Scholar (University of Chicago)	2020
Harper Award (University of Chicago)	2020
Student Marshal (University of Chicago)	2019–2020
Dean's List (University of Chicago)	2016–2020

Presentations and Posters

How Statically-Typed Functional Programmers Write Code

Presentation at OOPSLA	2021
Presentation and **poster** at CHI Student Research Competition	2021

Program Sketching with Live Bidirectional Evaluation

Presentation at ICFP	2020
Presentation at Midwest Programming Languages Summit (MWPLS)	2019
Poster at UChicago Careers in STEM Undergraduate Research Symposium	2019

Type-Directed Program Transformations for the Working Functional Programmer

Presentation at PLATEAU Workshop	2019

Approximating Polymorphic Effects with Capabilities

Presentation and **poster** at SPLASH Student Research Competition	2018
Poster at Midwest Programming Languages Summit (MWPLS)	2018

Direct Manipulation Programming in Sketch-n-Sketch

Tutorial at ICFP presented with Chugh, Collins, Hempel, and Mayer	2018

Teaching

University of California, Berkeley

CS 164: Programming Languages and Compilers (Head TA)   Fall 2021

University of Chicago

CMSC 22300: Functional Programming (TA)   Spring 2020
CMSC 16100: Honors Introduction to Programming I (Grader)   Fall 2018

Mentorship

Advisees

Fayaz Shaik (Undergraduate)   2021–
Dhanya Jayagopal (Undergraduate, MS)   2020–

External Service

Reviewer

Symposium on User Interface Software and Technology (UIST)   2021

Student Volunteer

Elm in the Spring Conference   2019
International Conference on Functional Programming (ICFP)   2018

Internal Service

Organizer, Berkeley Programming Systems Seminar   2021–2022

Community Service

Co-organizer, #ShutdownPL   2020–

Organization to identify, discuss, and organize around opportunities for anti-racist change in the programming languages community.
